Mary Lee returned to her father's house after a two years' residence with her uncle Kent. Peculiar circumstances alone had induced her parents to allow this long absence from the paternal roof, and joyfully was their eldest-born welcomed back again to the warm and loving sympathies of home. With secret solicitude did they watch the development of her character, to learn if the Mary who went body lives here,' said Mary, as her father jummy dear mother when six of us little fellows out from them was the same Mary who had returned to them. The air seemed filled with a thousand brilliants, and the deep, cold stillness of the country was only broken by the dropping icicle, or the distant sleigh-bell. Mary was much exhilerated, both by the magnificence of the snow scene, and her father's pleasant conversation. They rode along upon the beaten path, when he attempted to force his way into a cross and almost untrodden track. They diverged from a snow-bank here, only to plunge into another there. 'Oh, father, where are we going ?' exclaimed Mary.

'To call at a friend's house,' answered her father; and, as they rode on, Mary discovered a roof and chimney, on a slope not very far off.

#### PUNISHMENT IN SCHOOLS.

A trial for assault and battery, which excited some interest in this town, took place on Tuesday last, before Wm. S. Morton, Esquire. The defen dant was Mr. David Atwood, a teacher in one of the Schools at Quincy Point, and the cause of the complaint was an alleged assault upon one of his pupils-a son of Mr. Nathaniel Hayden, between fourteen and fifteen years of age.

The testimony went to show that the boy laughed in school hours, and Mr. Atwood told him if he caught him laughing again, he would have a settlement with him. Soon after he laughed again, and Mr. Atwood called him out. He came as ordered, and while Mr. Atwood went into a room adjoining to procure a stick, he left the school-house. On the following morning he went to school, and soon after school commenced, Mr. Atwood sent a boy to lock the doors and bring him the keys. He then called the boy out again, and ordered him to take off his jacket; the boy refused. He then told the boy to step down from the platform—he again re-fused—when Mr. Atwood seized him by his hair, ued to be, as it ever has been pulled him to the floor, and commenced lashing him, and that he held him by the hair during the whole of the punishment.

It appeared from the evidence that he struck the boy about one hundred blows. One witness testi- us. The question to be decided was, whether the punishment inflicted was not too violent for the offence which had been committed, and the justice in summing up the testimony and commenting any of our schools. But it was his duty while acting as a magistrate, to come to such a decision, without regarding the consequences which such a decision might cause in other schools, as justice and equity required. And although he had supposed that with competent teachers and in well regulated schools, corporeal punishment was entirely abandoned, yet, it was not to be denied that it was still allowed, and by some, deemed necessary. Still, in this case, it appeared to him that the punishment inflicted was very much too severe and beautiful map of the City of Boston is attached, he was therefore under the necessity of imposing upon the defendant a fine of ten dollars; and he costs of prosecution-from which sentence Mr. Pleas. ADDRESS TO THE PASTOR. Auld Lang Syne. We here have met, in bonds of love, To join thy little band; And hope, as days and years roll on, God will thy heart command.

As in those days that's past and gone May virtue crown thy days; And ever find thee girdled with That truth which ne'er decays.

May wisdom guide thy footsteps here, Through chequered scenes of life; Oh! then will pierce the cloud of shade, A ray of heavenly light.

We trust should sorrow dim thy course, Thy wife-thy partner dear-Would view in every providence, The hand of God was near.

May youth around thee brighten still, Unburden every care, And evermore be shielded in By mercies arm made bare.

And should misfortune seize thee then, Or those of thy dear home; Oh! may thy people here that love Bring friendly aid and come.

And, when alas! we too must bow Beneath affliction's rod; We trust that thou will near us be And wing a prayer to God.

And as each year shall take its flight, And we are spared to view, May we adorn thy home so bright, And pass the eve with you.

THE NEW YEAR. " The morning light is breaking." The new born year is ushered, Our friends we here do greet; Oh! may our hearts ascend to God, To make our joys complete.

We here have found a welcome, Within our Pastor's home, Which teaches us that pleasure From kindred souls will come. Here's father, mother, brother,

Sister and kindred friends: All met to join each other, And gifts of friendship bring.

Here may that joy and pleasure Arise in every breast. Which makes the fireside circle-The home so pure and blest.

May the influence of this evening Be shed on all around, And works of love and mercy More fruitfully abound.

May it make us all more social, More friendly and more kind; Like the example of our Saviour, A blessing to mankind.

Oh! may the year continue, And waft us peaceful gales; If reverse should be our lot, God's promise never fails.

Oh may that word, which teaches A Saviour's glorious love, Unite our hearts forever. Till all shall meet above.

Consumption. The great English remedy for Colds, Coughs, Asthma, and Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered about eight years ago by the celebrated Dr. Buchan of London, England. So perfect and infallible is this remedy, even in the most hopeless cases of Consumption, that it has been admitted into the Hospitals and other public Institutions of Great Britain, and has become as much a standard medicine as the Fluid Magnesia of Sir James Murray. > For the Quincy Patriot. THE NEW YEAR.

Some fair life-boat may overwhelm.

Midway of the sable night Did the aged year expire, Close upon its rapid flight Came its infant greedy air.

Crimson'd light array'd the dawn. Brilliant day was in the rear, Millions waking hailed the morn Wak'd and wish'd a happy year.

Feasting jovial crown'd the day, Wit and mirth flow'd sweetly on; Age was joyful, Youth was gay, When the circling year began.

But relentless fate stood by, Stood and mock'd their mad career, Whilst it singled out to die, Myriads in the current year.

And of men what seer can tell, Who the wretched victims are, Who shall need the solemn knell, Ere the closing of the year.

Reader! perhaps thyself must die, Doom'd to quit this mortal sphere; Cold in the tomb perchance thou'lt lie, Ne'er to hail another year.

But the soul consigned to love, When this breast forgets its to glow, Shall ascend to heaven above; Or sink into the gulph below. Randolph, Mass.

> For the Quincy Patriot, NEW ENGLAND.

Hail! happy New England, the land of my birth The home of my fathers, who loved thee so dear May thy fame, as widely it spreads o'er the earth, Gather honors to burnish thy bright career.

May thy mountains, thy hills, as proudly they rise From thy valleys and plains, so lovely to view, Be the pride of thy sons till memory dies, And the earth is shrouded in death's dismal hue.

May thy rivers, in their loveliness flowing, Through the haunts and retreats where solitude

Bear thy renown to the wide-spreading ocean. That the world may behold thy princely domains.

May thy cities and towns, rising in beauty. From the soil which the Pilgrims hallowed wit

Remind thy heroes and statesmen of duty. Which they owe to the country whose name they

May thy sons and thy daughters tread the bright path That virtue, in love, has established for man; May the smiles of their God, unmixed with his wrath

Beam brightly upon them from Canaan's fair land. I love thee, New England, my earliest home. The place where the graves of my fathers are found Endeared to my heart thou wilt ever remain. For pleasure and joy in thy borders abound.

A NEW YEAR'S GREETING.

May smiles and sunshine greet you on your way ! If married, calm and peaceful be your lives; If single, may you forthwith get your wives! And, whether male or female, old or young, Or wed or single, be this burden sung; Long may you live to hear, and we to call, A happy Christmas and New Year to all!

WILLIAM S. MORTON, Commissioners. Quincy, Dec. 7.

DR. FERNANDS' Vegetable Indian Arcanum,

FOR THE CURE OF Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous

Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine. THIS is a preparation which Dr. Fernands, who is

L an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands. in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, Indian Physician JOS. J. CLARK, Agent for New England States.

CERTIFICATES. From W. Abercrombie of Quincy, Merchant

Trader. To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medi

SIR-I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are herr to-Consumption. I have in vain tried many medicines which were recommended. but from all of them I obtained not the least relief, About eighteen months ago, I was induced to try Dr Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health. and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE. Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark : DEAR SIR-I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' Vegetable Indian Arcanum.

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor o this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heavi ness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this prepa ration which has cured my friend, I feel greatly relieved, and have strong hopes, after following the direc-tions, of being restored to health. I think very highly of the medicine, and am confident' that it will prove claimed a dull and warm orator in an argument. I efficacious in the cure of many diseases, if once resort-

Yours, truly,
IBRAHIM BARTLETT. Quincy, May 2d, 1843.

From John Page, Clerk of the Hancock House Quincy.

To Joseph J. Clark, Agent for Dr Fernands' Arcanum: Sir-Some time since I was so much indisposed as to be unable to pursue my business, from an attack of termed, general debility of the system. At this stage of my health, my triend Mr. Abercrombie, who had been happily cured by the use of a few bottles of Dr. Fernands' Indian Arcanum, advised me to seek for health from the same source, which I readily improved, and with gratification, state to the public that I have the night, and unfortunately the store belonged to another man. I so much desired, in a restoration to the enjoyment of good health, which I solely attribute to the Arcanum.

Quincy, May 2d, 1843. JOHN PAGE. Price, \$1,00 per bottle, or six bottles for \$5,00. Only Office in Boston, No. 51 1-2 Hanover Street, (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

Removal.

JOHN DINEGAN,

Merchant Tailor,

RESPECTFULLY informs the people of Quincy and its vicinity, that he has removed from over D. Baxter & Co's Store to the stand lately occupied by Mrs. H. Brummett, School Street, where he has received a choice assortment of FALL AND WINTER GOODS, consisting of English, French and German RECARCI OF HEST such as Black Plant and Oliver of the rest has consistent.

man BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality Among the assertment I have received will be found English Beaver Pilot CLOTHS, of the best manufacture, and as cheap as can be bought in Boston or elsewhere.

CASSIMERES—I have got a good and fashionable assortment of English, French and American CASSI-MERES; which I will warrant to give satisfaction. VESTINGS—I have got a first rate assortment, consisting of figured and plain silk VELVETS—plain and figured SATINS, and a good variety of CASH-

MERES and VALENCIAS, etc. Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods.

All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment-in or out of the city. I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their atten-

tion may be directed. I would respectfully refer those gentlemen who have not as yet favored me with a share of their patron age to those gentlemen who have extended their support, and they will tell them how their garments suited.

People would not call the second or third time if my work did not suit them.

Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it. Quincy, Oct. 19.

CLOTHING STORE, RAILWAY VILLAGE, MILTON.

THE Subscriber respectfully calls the attention of the inhabitants of Milton, Quincy and the surrounding Laces, Edgings, Hosiery, Gloves, Hdks., Scarfe,

L neighborhood, to his RICH AND FASHIONABLE ASSORTMENT OF FALL AND WINTER GOODS.

feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled by many Stores there ) The assortment consists of some of the finest quality of English, German and American Broadcloths for Dress and Frock Coats. Rich and splendid Plaid and Fancy Silk Velvets, the latest style of Goods imported. or that can be bought in Boston, of the best quality. A fine lot of English, French, German and American Striped, Plaid and Plain Doe Skins and Cassimeres, of the latest style and best quality-very superior Goods.

A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and work-

manlike manner, with the best of trimmings, and warranted to fit.

Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and workmanlike manner, in any style the purchaser may choose.

It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what

they were cracked up to be, and would have been dear had they been bought at half the price paid. My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sorrow of a great many purchasers.

These statements can all be substantiated both as regards myself and the Boston goods, by numerous individuals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twentyfive dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen the public, that he is prepared to furnish excellent vedollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars. This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will of which will endeavor to accommodate to his utmost find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by A. SHOWELL MARSH. going to Boston. Milton, Oct. 19.

For the Quincy Patriot. MUSIC.

I love to hear musick. It brings to my heart A thousand bright visions that never depart; It tells of a land where I roved a rude boy, My heart full of rapture-my mind full of joy.

I love to hear musick. O wake the sad strain, It tells of past joys that return not again ; It tells of a land that in childhood I loved, The sweet distant land where my forefathers roved.

I love to hear musick. Soft moving and sad, When the sun has gone down and the world is in shade; It tells of a land where no 'wild willows wave,' The beautiful land beyond the cold grave.

I love to hear musick. When twilight appears, Soft, soul stirring musick will melt one to tears; It sounds like the songs by Angel harps given, To welcome the souls of the happy to Heaven. c.

#### OLD MAIDS.

I am a lover of all womankind, And maidens old are not old maids to me. Though beauty flees, there still remains the mind: And mind is surely better company ! What though the harp be new and trimmed with gold;

Does sweeter music tremble in its tone Than when the gaudy polish has grown old, And naught is left but sweet accord alone? Or is the gem held in less high esteem, Because the casket is defaced by time? A woman's mind, a princeless gem I deem ;-Her heart, a hase that music yields sublime. So wonder not that years hide not from me The jewel's glow-the harp's sweet melody.

THE SHOEMAKER.

He wants a firm and active mind, A purpose sure and steady, To patient industry inclined, For business always ready.

He wants a neat and prudent wife, Who, when he earns can save it, Who kindly soothes the cares of life-Best gift of Him who gave it.

He wants a snug and tidy house, And health and strength together; And a good shop to keep all warm And dry, in rainy weather.

Heaven then must crown the whole, Or all his hopes are blasted; But with this resting on his soul, The purest joys are tasted.

He then enjoys a bliss unknown To them the world calls greatest; Known only to the good alone, The earliest and the latest.

Now tell me all ye gouty train, Who have what fortune gives, Is not the cheerful shoemaker The happiest man that lives.

Plymouth Memorial.

THE HEART! THE HEART! The heart-the heart! oh! let it be

A true and bounteous thing, As kindly warm, as nobly free,

Oh! keep it not, like miser's gold, Shut in from all beside, But let its precious stores unfold,

As eagle's nestling wing.

In mercy, far and wide. The heart-the heart, that's truly blest, Is never all its own :

No ray of glory lights the breast That beats for self alone.

The heart -- the heart! oh! let it spare A sigh for others pain; The breath that sooths a brother's care

Is never spent in vain. And though it throb at gentlest touch, Or sorrow's faintest call, Twere better it should ache too much,

Than never ache at all. The heart-the heart, that's truly blest, Is never all its own:

No ray of glory lights the breast, That beats for self alone.

A colored man lately went to the post office, and putting his nose close up to the delivery box, cried out · Louder !' The clerk, supposing the negro to be deaf, and that he was making a request of him to speak louder, so that he could hear, asked him, in a very loud tone, the name of the person for whom he wanted the letter. 'Louder!' cried the negro. 'What name?' yelled the clerk. 'Louder!' again bawled the negro, who now supposed the clerk to be deaf. The clerk took a long breath, and with all his might again bellowed out in the negro's face the same question-- 'What name?' This was done in so loud a the very top of his lungs, 'Louder, sir, Louder! I told you Louder! my name is nothing else!' DR. FERNANDS'

Vegetable Indian Arcanum. FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is-1 an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken ac-Erding to his directions, it has never failed, in any of he complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most lelicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States. J. K. FERNANDS, Indian Physician

Stone Bank. To Mr. Joseph J. Clark:

DEAR SIR-1 am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' Vegetable Indian Arcanum. I do most cheerfully certify that I am well acquaint-

ed with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, en-

tirely to the use of Dr. Fernands' Medicine. I feel it my duty to say a word or two in favor of GILDING & GRAINING this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache,

dimness of sight, palpitation of the heart, etc. I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resort-

Some of these shops advertise, to make the best suit of clothes that can be made for twenty-five dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a shorttime after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars.

This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by A. SHOWELL MARSH.

He then called the boy out, and ordered him to take off his jacket; the boy refused. He then told the boy to step down from the platform-he again refused-when Mr. Atwood seized him by the bair, pulled him to the floor, and commenced lashing him, and that he held him by the hair during the whole of the pun-isbment.

This is my report. Now what does the Aurora

Bartlett Hayden testified—he then called me out, and as I went out he said to me, I suppose you old me to stand down off the platform-I told him I would not. He then caught me by the hair, and began to whip me with his cowhide. There is certainly no material difference in this

testimony, admitting that the Aurora is accurate. It appeared from the evidence that he struck the boy about one hundred blows. One witness testified that he counted seventy-nine, and was so frightened that he could not count any more. This is the Patriot's report. (In both reports,

the reason given by the boy for counting the blows was omitted-that he struck a boy twenty-five times on the day previous with a ruler-and he wanted to see whether he would strike so many with a cow-hide.) "One testified that he counted over seventy

blows." So says the Aurora. "And that Mr. Atwood continued to strike the boy after he had promised to do so no more," ac-

cording to the Patriot. The Aurora says, "two or three boys testified that Mr. Atwood continued to whip after the boy had promised to do so no more." "Several of the children were crying, and the brother of the boy begged the master not to kill him," as the Patriot

The Aurora thus gives the account. "Albert Hayden, brother to the boy who was whipped, stated in the course of his testimony that he called to Mr. Alwood not to kill the boy."

"One witness testified that Mr. Atwood before the commencement of the punishment took off his coat." This fact does not appear in the Aurora, although it was testified to by a lad named Baxter. "A lock of hair was exhibited in Court said to have been torn from the boy's head." So says the

Patriot report. Was not this the case?

The Aurora report says that "Bartlett picked a bunch of loose hair from the head." The Patriot report says. "It was in evidence that there were blows behind the ear-one slight, the were covered with the marks of blows, that the flowing from several of the wounds-that there was no bruise upon or near the temple that was clotted

A kiss! 'tis love's own tender breath-Fond language of the heart-The last communion held in death, When friends forever part; No charm can soothe like this;

The rapture of a kiss.

When gloomy cares disturb the breast, The mind is sweetly lulled to rest, Beneath a magic kiss.

A kiss! yes, 'tis a dear delight, Whose memory often cheers, And shines through clouds sere nely bright Recalling by-gone years: Who hath not felt the bosom beat, With an erstatic bliss, As loving souls together meet

THE ROSEBUD IN THE COFFIN. Robed for the grave the young bride lay;

Her hands were crossed upon her breast; The dimpling smile had ceased to play, And on her pale lip gone to rest.

In transport's glowing kiss?

A rosebud, mossy, dewy, white, Amid her flaxen curls was twined, Just opening, beauti'ul and bright, Like her unstained and thoughtful mind.

'Tis meet, the mourning lover said, That flowers should deck my perished bride : I little care, since she is dead, How many wither at her side.

The rosebud breathed a gentle sigh, Whose sweetness reached his fainting heart: "I am content," it said, " to die But not till I this truth impart :

" I would fain teach thee, ere I go, That though my form to death is given, In all its bright and youthful glow, My fragrance is exhaled to heaven.

"So thy young bride, on whose fair brow I find a holy place of rest, Has risen, in spirit, even now, And leans upon her Father's breast."

HOPE.

We speak with the lip, and we dream in the soul, Of some better and fairer day : And our days, the meanwhile, to that golden goal Are gliding and sliding away.

Now the world becomes old, now again it is young, But "the better" 's forever the word on the tongue

At the threshold of life Hope leads us in-Hope plays round the mirthful boy: Though the best of its charms may with youth begin,

Yet for age it reserves its toy. When we sink at the grave, Man planteth-HOPE And it is not a dream of a fancy proud,

With a fool for its dull begetter : There's a voice at the heart that proclaims aloud, "Ye were born to possess the better !" And that voice of the Heart, O ye may believe, Will never the hope of the soul deceive!

I've a secret to tell thee, but hush! not here--Oh! not where the world its vigil keeps; I'll seek, to whisper it in thine ear, Some shore where the Spirit of Silence sleeps; Where summer's wave unmurmuring dies,

Nor fay can hear the mountain's gush; Where if but a note her night-bird sighs, The rose saith, chiding him, ' Hush, sweet, hush!'

I'VE A SECRET TO TELL THEE.

When stars can be heard in ocean dip, Thyself shall, under some rosy bower, Sit mute, with thy finger on thy lip, Like him, the boy, who born among The flowers that on the Ntle-stream blush, Sits ever thus-his only song To earth and heav'n still " Hush, all, hush!"

There, 'mid the deep silence of that hour,

Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is L an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken ac-Erding to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs going to Boston. collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, his own hand writing, and also by his only authorized Agent for the New England States. J. K. FERNANDS, Indian Physician

For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, en-

man BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality Among the assortment I have received will be found English Beaver Pilot CLOTHS, of the best manufacture, and as cheap as can be bought in Boston or elsewhere. CASSIMERES-I have got a good and fashionable assortment of English, French and American CASSI-

VESTINGS-I have got a first rate assortment, consisting of figured and plain silk VELVETS-plain and figured SATINS, and a good variety of CASH-MERES and VALENCIAS, etc. Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and

All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment-in or out of the city. I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their atten-

tion may be directed. I would respectfully refer those gentlemen who have not as yet favored me with a share of their patron age to those gentlemen who have extended their support, and they will tell them how their garments suited. People would not call the second or third time if my work did not suit them.

Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it.

#### CLOTHING STORE,

## RAILWAY VILLAGE, MILTON.

THE Subscriber respectfully calls the attention of the inhabitants of Milton, Quincy and the surrounding I neighborhood, to his

RICH AND FASHIONABLE ASSORTMENT OF FALL AND WINTER GOODS. feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled

by many Stores there ) The assortment consists of some of the finest quality of English, German and American Broadcloths for Dress and Frock Coats. Rich and splendid Plaid and Fancy Silk Velvets, the latest style of Goods imported. or that can be bought in Boston, of the best quality. A fine lot of English, French, German and American Striped, Plaid and Plain Doe Skins and Cassimeres, of the latest style and best quality-very superior Goods. A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and workmanlike manner, with the best of trimmings, and warranted to fit.

Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and workmanlike manner, in any style the purchaser may choose

It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what they were cracked up to be, and would have been dear had they been bought at half the price paid.

My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sorrow of a great many purchasers.

These statements can all be substantiated both as regards myself and the Boston goods, by numerous individnals who have tried both places; many who have bought in Boston have brought their garments to me, and credit. paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twentyfive dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen the public, that he is prepared to furnish excellent vedollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars. This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by A. SHOWELL MARSH.

THE citizens of Quincy and other towns in the vicinity, who have not as yet favored us with their patron age, are requested to call at the CLOTHING ESTABLISHMENT, over the Quincy Market, Boston

MR. EDITOR-As there seems to be several different answers to the proposition of "B. L. B," and as all of which appear plausible, I thought I would give you my solution. A stick of timber is eighteen feet long and weighs one hundred and eighty pounds. Thus:

180 lbs. 150 120 90 lbs. 9 12 15

Now the two men standing under the figure 9 have to carry varies with their position from 90 to 180 lbs. or ten lbs. a foot. Now if we place the two pounds each, and the man at the other end would only have thirty pounds to carry. If the two men stood one quarter of the whole length of the stick 1-2 each while the man at the end would carry only 45 pounds. But if the two men stand under the 15 they would carry 120 pounds or 60 each, and the man at the end would carry 60--and this will apand 18, the man at 0 carries no part of it. There great injustice to our maritime towns. then remains the stick between 0 and 12 to be carried, and the man at 0 carries one half and the two men carry the other half, which added to the thriving condition as at the present time. #### CORRESPONDENCE. BOSTON, THURSDAY, JAN. 23d, 1845.

Mr. EDITOR-In the political community here, the Texas question is the leading theme of the day. The debates now going on by Congress as they great measure, are, that Texas having been an independent nation for nine years past, and so recogwhatever to her soil or jurisdiction.

The history of 1836 tells that like our own madge. beloved country, Texas gained her independence by conquest. The battle of San Jacinto drove the Mexicans from Texas, and left the soil and country in possession of the victors. That possession of soil by conquest, and retained a reasonable time, is ever regarded as valid to the conquerors in the eyes of nations. Time has perfected the Texian title. The high authority of Vattel sustains such views. Look at the rapacity of Great Britian for, and her possession of, territory by conquest or treaty in the four quarters of the globe. The same may be said of France and Russia. It has also been maintained, that independent of the authority to admit Texas into the Union derived by the war power, and the power to admit new States, she may be admitted by virtue of the power (not to make treaties for Congress has no such power,) but to contract alliances, enter into confederations, and make agreements and contracts with foreign nations, each of which power it is argued, our national legislature possesses. Examples may be found of this in the law regulating our intercourse with the British West Indies, and in our embargo and non-intercourse laws.

It has also been argued that the union of Texas with the United States, presents a combination of power, to produce all the elements and materials of wealth and prosperity, through their great chanpels, agriculture, commerce and manufactures, barks because he can't climb.

Our State Legislature are busy to work repealing old laws and enacting new. It is a remarkable fact, that nearly every chapter of the Revised Statutes of 1836, which cost Massachusetts so much money, has been from time to time, nearly all modified. A large edition of the excellent work of Henry C. Wright, entitled 'A Kiss for a Blow,' has been pub- adjoining Mr. Williams' Tannery, is again in operalished in England, for the whole of which, a rapid sale has been found, and another is speedily to be given to the British public. Every family ought to be supplied with a copy of it. The following lines, suggested by a perusal of this little volume, were written by the wife of George N. Watson, an Independent minister in Ireland.

"A KISS FOR A BLOW." What makes little children quite happy and good, And banish tempers both naughty and rude? It is the sweet maxim, we very well know, Of giving each other, . A kiss for a blow.'

Should a quarrel arise, what e'er be the cause, What is better by far than a whole code of laws? It is the sweet practice, we very well know, Of always returning 'A kiss for a blow.'

In each stage of life e'en from infancy's years, To manhood's last step in the valley of tears, Where's nought which can yield us such pleasure below.

As ever returning ' A kiss for a blow.'

Though men should condemn us, and call us but fools. Yet still must we love them, and pray for their souls? Through the journey of life let us patiently go, Still ever returning, ' A kiss for a blow.'

Should any assail us in deed or in word, Oh, then let us act like our meek patient Lord, Who e'en in the depths of the bitterest woe, Returned in his anguish, 'A kiss for a blow.'

And smiling saw that he and he alone, Had power at once to wound it or to bless. She gave to him her holiest affections, And the deep treasures of her virgin breast, And from the storms of life, she sought protection In his true love, her home of earthly rest,

She became his wife And years passed on in unalloyed felicity. But \_\_\_\_ the demon of intemperance With his insidious smile crep't stealthily around-The form she lov'd so well, He became a drunkard-and in trouble she awoke

From her young dream of bliss but murmur'd not Over her deep sufferings, nor spoke to any one Upon her cruel lot. One would have deem'd That vice had been forgot-or thought Her bosom callous to the stroke;

But on her cheek there was one hectic spot T' was little but it told her heart was broke. She lov'd and she forgave him And when dying breath'd forth her soul in prayer That he might be redeem'd,

Her simple grave the humble violet bears, And the pale primrose grows around her tomb. And when the storm its simple blossom tears It bows its head an emblem of her doom. K. E. H.

Think gently of the erring! Ye know not of the power With which the dark temptation came, In some unguarded hour. Ye may not know how earnestly They struggled, or how well, Until the hour of weakness came, And sadly thus they fell.

Think gently of the erring ! Oh, do not thou forget, However darkly stained by sin, He is thy brother yet. Heir of the self-same heritage !

Child of the self-same God ! He hath but stumbled in the path, Thou hast in weakness trod.

Speak gently to the erring ! For is it not enough That innocence and peace have gone, Without thy censure rough? It sure must be a weary lot That sin-crushed heart to bear,

And they who share a happier fate, Their chidings well may spare. Speak kindly to the erring? · Thou yet may st lead them back,

With holy words and tones of love, From misery's thorny track. Forget not thou hast often sinned, And sinful yet must be-Deal gently with the erring one. As God-hath dealt with thee?

The complexion is greatly improved by this medicine. HIS is a preparation which Dr. Fernands, who is

Simplicity: all undisguised in its young tenderness, an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken ac-Erding to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands. in his own hand writing, and also by his only authorized Agent for the New England States.

ESPECTFULLY informs the people of Quincy and its vicinity, that he has removed from over D. Baxter & Co's Store to the stand lately occupied by Mrs. H. Brummett, School Street, where he has received a choice assortment of FALL AND WINTER GOODS, consisting of English, French and German BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality.

Among the assortment I have received will be found English Beaver Pilot CLOTHS, of the best manu-

facture, and as cheap as can be bought in Boston or elsewhere.

CASSIMERES—I have got a good and fashionable assortment of English, French and American CASSIMERES; which I will warrant to give satisfaction. VESTINGS—I have got a first rate assortment, consisting of figured and plain silk VELVETS—plain and figured SATINS, and a good variety of CASH-MERES and VALENCIAS, etc.

Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods. All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment—in or out of the city.

I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have

I would respectfully refer those gentlemen who have not as yet favored me with a share of their patronage to those gentlemen who have extended their support, and they will tell them how their garments suited.

People would not call the second or third time if my work did not suit them. Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it. Quincy, Oct. 19.

feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled by many Stores there ) The assortment consists of some of the finest quality of English, German and American Broadcloths for Dress and Frock Coats. A fine lot of English, Franch, German and American Striped, Plaid and Plain Doe Skins and Cassimeres, of the latest style and best quality—very superior Goods. A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and work-

manlike manner, with the best of trimmings, and warranted to fit. Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and workmanlike manner, in any style the purchaser may choose It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what

ey were cracked up to be, and would have been dear had they been bought at half the price paid. My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sor-

row of a great many purchasers. These statements can all be substantiated both as regards myself and the Boston goods, by numerous individuals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twenty-

five dollars, which we well know cannot be done. As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars.

This is but one instance, but many more could be named if necessary. Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garraent of me than they will get by A. TO -No, not by the aisle, of the gothic pile. Be my wedding service read, Where the world may come, from its busy hum, To silence awhile its tread; Then backward go, and little know, Of what in the soul has birth,

At home's altar, the purest on earth. But, give me my bride, at the fire side,

Where with brothers and sisters she played, Where the golden stream of love's first dream Hath won me my beautiful maid; In the home she receives, for the one she leaves, I'll be parents, and kindred, and all, And flowers as fair, shall welcome her there,

As were those of her father's hall. Yes, give me my bride, by her mother's side, To whom she owes her birth, Where, first the kiss, of a parent's bliss, Was her welcome unto earth ;

Where first the prayer, of a parent's care, Was for the infant said, Where the smiles and tears of her earliest years,

And her girlhood's life has sped. And give me my bride, at her father's side,

Where first he formed her mind, Where he watched each trace of unfolding grace, And pride with his love entwined.

As he saw renewed, with feelings subdued, Those beauties that won his youth, Oh, while heaven above, grants a father's love, On earth there's a heaven of truth.

Thus, give me my bride, at eventide. 'Tis ever a sacred hour, Let friends around, their greetings sound And music lend its power, To Fancy gay, whose cheerful ray, Shall gild the path untrod, And Faith may kneel the while we feel.

That home is "the house of God."

DR. FERNANDS' Vegetable Indian Arcanum, FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken ac-Erding to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most icate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands,

ized Agent for the New England States.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank. To Mr. Joseph J. Clark:

DEAR SIR-1 am gratified to learn that you are about to establish a place for the sale of Dr. fernands' Vegetable Indian Arcanum.

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercombie, and believe that TRIMMING in their various branches. his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have tion to the above prices. it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resort-Yours, truly,

MERES; which I will warrant to give satisfaction. VESTINGS-I have got a first rate assortment, consisting of figured and plain silk VELVETS-plain and figured SATINS, and a good variety of CASH-

MERES and VALENCIAS, etc. Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods. All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and

as good fits, as can be got in any other establishment—in or out of the city.

I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that i will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their attention may be directed.

I would respectfully refer those gentlemen who have not as yet favored me with a share of their patronage to those gentlemen who have extended their support, and they will tell them how their garments suited.

People would not call the second or third time if my work did not suit them. Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments

made to suit; or if they do not I shall refund them the money they paid for it.

CLOTHING STORE, RAILWAY VILLAGE, MILTON.

THE Subscriber respectfully calls the attention of the inhabitants of Milton, Quincy and the surrounding

neighborhood, to his RICH AND FASHIONABLE ASSORTMENT OF

FALL AND WINTER GOODS. feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled by many Stores there) The assortment consists of some of the finest quality of English, German and American Broadcloths for Dress and Frock Coats. Rich and splendid Plaid and Fancy Silk Velvets, the latest style of Goods imported. or that can be bought in Boston, of the best quality. A fine lot of English, French, German and American Striped, Plaid and Plain Doe Skins and Gassimeres, of the latest style and best quality—very superior Goods.

A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and workmanlike manner, with the best of trimmings, and warranted to fit. Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and rkmanlike manner, in any style the purchaser may choose It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of

those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what ey were cracked up to be, and would have been dear had they been bought at half the price paid. My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sor-

row of a great many purchasers. These statements can all be substantiated both as regards myself and the Boston goods, by numerous individuals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twenty-five dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars.

This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by A. SHOWELL MARSH. going to Boston. Milton, Oct. 19.

It was about eleven o'clock and the sun was warm, and Jacob, although he had his coat off, perspired freely, and during his work, gave utterance to many a groan. At length he stopped, fruit ready to break; if you should coax and for Adam's sin! Now, man has to struggle from his forehead and face with his red bandanna handkerchief.

At length every thing was removed from the table, the cloth even taken away, yet this dish carefully replaced, still covered, by the servants. Jacob thought, as he drank the wine he poured out for him, that the dish would be soon uncovered, and he should be helped to a part of what was in it. To his grief and regret, he saw Colonel LeRoy about to rise from the table without touching it, when, thinking he had forgot it, he ventured to speak and modestly reminded him

It is a custom with me always to have on my table, one dish not uncovered to whetten the appetite, while it defers a curiosity and so inculcates a healthy lesson. As a member of the society, I feel some inany where near its last end. I do not think the fact, that three or four of its members have left, is any indication at all of its downward progress. The society consists of over a hundred members, and if only three or four have seen fit to leave, I think we ought to take courage rather than despond.

Others, 'a Friend' goes on to say, talk of of the society would be opposed to it-indeed ! know not of any that would vote for it. 'A Friend' speaks also of the indifference manifested by a great part of the members in the cause of temperance. Consumption. The great English remedy for Colds, Coughs, Asthma, and Consumption, is the HUNGARIAN BALSAM OF Life, discovered about eight years ago by the celebrated Dr. Buchan of London, England. So perfect and all accounts must be settled by that time. infallible is this remedy, even in the most hopeless cases of Consumption, that it has been admitted into the Hospitals and other public Institutions of Great Britain, and has become as much a standard medicine as the Fluid Magnesia of Sir James Murray. The immense amount of mortality which this Balsam has prevented since its introduction into the United States, is a matter of astonishment to the medical faculty. It is, indeed, a safe, speedy, and effectual cure for Consumption, in all its forms, and the only certain source

'Twas the earliest dawn of infancy; around That cherub face there play'd a smile, Such as belongs to innocence alone; and That young mother gazed upon her Sleeping boy with all a mother's fondness; Nor ever once had dreamed of the dark ho urs The future had in store. Years clustered 'round Him, still that smile was there, and the Bright flashes of his kindling eye spoke of Intellectual endowments high and rare. He struggled hard Against the foe and long, but naught availed -He fell to rise no more. And now that mother's cup of wretchedness is full,

And must she drain it? Ave, to the very dregs. Who Shall count the many sleepless nights and days of bitter Anguish passed by that grief-stricken mother in her

UNCERTAINTY OF LIFE.

Beneath our feet and o'er our head Is equal warning given; Beneath us lie the countless dead.

Above us is the heaven. Death rides on every passing breeze, He lurks in every flower; Each season has its own disease,

Its perils every hour. Our eyes have seen the rosy light Of youth's soft cheek decay; And hate descend in sudden night

On manhood's middle day. Our eyes have seen the steps of age Halt feebly towards the tomb. And yet shall earth our hearts engage, And dream of days to come.

Turn, mortal, turn ! thy danger know --Where er thy foot can tread, The earth rings hollow from below, And warns thee of her dead!

THE REFORMER.

The true Reformer, like the pioneer, Who hews the western forest, must throw by All thoughts of ease or resting till he die; Nor in his noble breast admit the fear Of ill; although through life, he may no: hear The voice of friend, nor see one loving eye To cheer him on his way of duty high,

And warn him when his foes are lurking near! Yet fields of beauty, by his dauntless hand, Shall rise in loveliness, where now the gloom Of error deth the light of Truth withstand ; The lonely wilderness he fells shall bloom

Throughout all aftertime; and those who now Scowl with mad hate, before his tomb shall bow!

The complexion is greatly improved by this medicine

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, 'Pis not the steps of her poor boy, and yet she starts to does not contend that it will care all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken acording to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy Who shall paint that mother's anguish, words are poor and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and

even prescribed, this valuable medicine. To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, n his own hand writing, and also by his only authorized Agent for the New England States.

I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief, About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health and have not raised any blood since the use of the first

bottle of this excellent preparation.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache,

limness of sight, palpitation of the heart, etc. I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the direc-tions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resort-

#### Removal.

## JOHN DINEGAN,

Merchant Tailor,

RESPECTFULLY informs the people of Quincy and its vicinity, that he has removed from over D. Baxter & Co's Store to the stand lately occupied by Mrs. H. Brummett, School Street, where he has received a choice assortment of FALL AND WINTER GOODS, consisting of English, French and German BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality.

Among the assortment I have received will be found English Beaver Pilot CLOTHS, of the best manufacture, and as cheap as can be bought in Boston or elsewhere.

CASSIMERES—I have got a good and fashionable assortment of English, French and American CASSIMERES; which I will-warrant to give satisfaction. VESTINGS—I have got a first rate assortment, consisting of fagred and plain will VELVETS.

sisting of figured and plain silk VELVETS-plain and figured SATINS, and a good variety of CASH-MERES and VALENCIAS, etc. Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and

All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment—in or out of the city.

I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their attention may be directed

I would respectfully refer those gentlemen who have not as yet favored me with a share of their patronage to those gentlemen who have extended their support, and they will tell them how their garments suited. People would not call the second or third time if my work did not suit them.

Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it. Quincy, Oct. 19.

RAILWAY VILLAGE, MILTON.

THE Subscriber respectfully calls the attention of the inhabitants of Milton, Quincy and the surrounding Printed Lawns: Bishop Lawns; Muslins; White, a neighborhood, to his

RICH AND FASHIONABLE ASSORTMENT OF

FALL AND WINTER GOODS. feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled by many Stores there )

The assortment consists of some of the finest quality of English, German and American Broadcloths for PUMPS, SHOES and BROGANS. Dress and Frock Coats. Rich and splendid Plaid and Fancy Silk Velvets, the latest style of Goods imported. or that can be bought in Boston, of the best quality. A fine lot of English, French, German and American short notice, and warranted to fit. Striped, Plaid and Plain Doe Skins and Cassimeres, of the latest style and best quality-very superior Goods.

A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and workmanlike manner, with the best of trimmings, and warranted to fit.

Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and workmanlike manner, in any style the purchaser may choose It is a weil known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what they were cracked up to be, and would have been dear had they been bought at half the price paid.

My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the costomer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sorrow of a great many purchasers.

These statements can all be substantiated both as regards myself and the Boston goods, by numerous individnals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twentyfive dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars.

This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by A. SHOWELL MARSH. going o Boston. Milon, Oct. 19.

CHAPTER II. which time no news had been received of the fate of Charles Quimby, who was in England. He had written, but his letters never reached the anxious father. One evening, however, Fidelia saw upon the list, a letter from London, directed to 'James Quimby, or his daughter Fidelia.' On breaking the seal, she learned with great delight it was from her brother, and contained a fifty pound note, assuring them he was in good business, and intended, during the year to visit America.

A new era seemed to be created at once, in the history of the poor family. It was immediately resolved, that with a portion of the funds thus timely obtained, as requested by Charles, Fidelia should enjoy the long coveted was already at a trade, where by his industrious father were enjoying a short ride, among the ed of an agreeable and splendid party on the you could not find it in your heart to do them was already at a trade, where by his indextined appointed festal day. YOUNG MEN'S TEMPERANCE SOCIETY.

B.

Mr. Editor-In your paper of Feb. 1st, you was kind enough to publish a short appeal to the members of the Young Men's Washington Total Abstinence Society. That article was not written with any desire for a discussion, or any design of drawing an answer from any one, but I perceive by your last paper that one gentleman at least considered it worthy of an answer. Now, although I admire the beautiful language he uses, and the eloquent appeal he has made to the young men, yet I cannot forbear making a few remarks upon some of his statements. He states, that 'a Friend' seems to ground his opinion 'that the Society is rapidly declining' on the fact that three or four bave withdrawn and some others talk of dissolving the Society. That statement I think incorrect. I do not think the Society is rapidly declining, but I think it has remained nearly stationary for the last six or eight months. I believe the Secretary's books will show that some seven or eight have withdrawn, but if that were all I should not fear for the society. It is the indifference of a majority of those that remain that caused my apprehension. He refers to the other two societies in this place, and says-' are not the greater part of them (their members) sleeping on their posts, only to be waked up at intervals as occasion often the temperance cause requires that men should be waked up? I am very fond of periodicals of some kinds, but I do not believe in periodical reas unwilling as he is that any wrong impression should go abroad respecting the society. I merely stated what I believed to be facts, hoping it might do some good, but I will say no more lest I should conwey some other wrong impression.

By a reference to the price currents it will be seen at a glance, that there is no falling off in the prices of commodities. Money however, is abundant and can be obtained on good loans at four and a half per cent. with Mexico, alike costly and dangerous, and with some misgivings of being finally overrun by the Mexicans; and lastly, Texas expected to come in as a Territory, to have her debt paid and give her hand to the Union; but under the present bill Texas gains nothing but protection. She comes in as in weight, five cents, for all distances. Newspapers payment, with nothing positively gained but a change of position and the territory cut up into two or three repudiating States, half free and half slave. Nothing is assumed on our part—it is a cold come an ounce; circulars unsealed, two cents each. No in, without scarcely the invitation to take a seat. England stands ready to take advantage of this mal sert in a newspaper column, the following mercial treaty with us—give us the rights and privleges we claim, and we will assume your debt and compel Mexico to acknowledge your independence.' These are tempting offers; and we fear that they cannot be rejected under the bill we have passed." TRI-MOUNTAIN.

IMPORTANT DISCOVERY. A correspondent of the Washington (D. C.) National Intelligencer, writing from New York, gives an account of an important discovery affecting the profession of engraving, comb. lithography, etc.

The discovery consists in a process by which an elaborate line engraving of any size may be so accurately copied that there shall be no perceptible difference between the original and the copy; by which an engraving on steel or copper may be produced from an impression of the print-the original plate never having been seen by the copyist-and ten thousand to twenty thousand impressions. Nothing has such a tendency to restore the system, as sound and refreshing sleep, a popular writer beautifully remarks :- " All healing sleep soon neutralizes the corroding caustic of care, and blunts even the barbed arrows of the marble-hearted fiend, Ingratitude;" and by a well-known poet it is described as " Nature's sweet restorer : " yet there are thousands who pass weary and sleepless nights without taking the trouble to ascertain the cause; many resort to opiates, and thus aggravage the evil. PARR'S LIFE PILLS will be found to soothe the irritated state of the nerves, and will soon bring the whole system into that cool and healthy state as will induce sound and refreshing sleep, and thus fit the mind and body for the varied duties of life, which henceforward will be performed with ease and satisfaction.

> DR. FERNANDS' Vegetable Indian Arcanum. FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatesm, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Javidice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken ac-? rding to his directions, it has never failed, in any of e complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark: DEAR SIR-I am gratified to learn that you are bout to establish a place for the sale of Dr. Fernands'

Vegetable Indian Arcanum. I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has bad frequent turns of raising blood. to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have t from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor o this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heavi-ness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this prenaration which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove ers, VELVET RIBBONS, GIMPS, Paris CORDS, of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. PESPECTFULLY informs the people of Quincy and its vicinity, that he has removed from over D. Baxter & Co's Store to the stand lately occupied by Mrs. H. Brummett, School Street, where he has received a choice assortment of FALL AND WINTER GOODS, consisting of English, French and German BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality Among the assortment, have received will be found English Beaver Pilot CLOTHS, of the best manu-

facture, and as cheap as can be bought in Boston or elsewhere.

CASSIMERES-I have got a good and fashionable assortment of English, French and American CASSI-MERES; which I will warrant to give satisfaction. VESTINGS-I have got a first rate assortment, consisting of figured and plant silk VELVETS-plain and figured SATINS, and a good variety of CASH-

Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods. All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment-in or out of the city.

I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their attention may be directed I would respectfully refer those gentlemen who have not as yet favored me with a share of their patron-

age to those gentlemen who have extended their support, and they will tell them how their garments suited. People would not call the second or third time if my work did not suit them. Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it.

those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what they were cracked up to be, and would have been dear had they been bought at half the price paid My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Steres in Boston, where they are glad to get their goods out of sight, and the customer

too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sorrow of a great many purchasers. These -tatements can all be substantiated both as regards myself and the Boston goods, by numerous individuals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twentyfive dollars, which we well know cannot be done.

As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars. This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by Leaf Mattresses, for sale low. A. SHOWELL MARSH. Milton, Oct. 19. W.A. 3CL. ST

Wouldst thou listen to its gentle teaching, All thy restless yearnings it would still; Leaf and flower and laden bee are preaching, Thine own sphere, though humble, first to fill.

Poor indeed thou must be, if around thee Thou no ray of light and joy canst throw; If no silken cord of love hath bound thee To some little world through weal and wee;

If no dear eyes thy fond love can brighten,-No fond voices answer to thine own; If no brother's sorrow thou canst lighten, By daily sympathy and gentle tone.

Not by deeds that win the crowd's applauses, Not by works that give thee world-renown, Not by martyrdom, or vaunted crosses, Canst thou win and wear the immortal crown.

Daily struggling, though unloved and lonely, Every day a rich reward will give; Thou wilt find, by hearty striving only, And truly loving, thou canst truly live.

DR. FERNANDS' Vegetable Indian Arcanum,

FOR THE CURE OF Consumption and Liver Complaint, Inflammation of the Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

HIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken acording to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and

even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, Indian Physician JOS. J. CLARK, Agent for New England States. from W. Abercrombie of Quincy, Merchant Trader.

WYMAN ABERCROMBIE. Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark: DEAR SIR-I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' Vegetable Indian Arcanum.

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood. to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc. I am free to say, that since I have used this prepa-

ration which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resort-Yours, truly, IBRAHIM BARTLETT.

workmanlike manner, in any style the purchaser may choose It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what ey were cracked up to be, and would have been dear had they been bought at half the price paid. My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to

see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sorrow of a great many purchasers. These statements can all be substantiated both as regards myself and the Boston goods, by numerous individ-

uals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twenty-five dollars, which we well know cannot be done. As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an

old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars; he confessed that mine were cheaper at the confessed that mine going to Boston.

There is a love of elder growth Less dazzling than the love of youth; Where gentle looks and anxious care Aspire the husband's toil to share: Which seeks its solace and employ Providing for her children's joy; Which owns no happiness complete Till they are healthy, clean and neat; Which strives to spare the humble store, And makes the little something more; Love, which, the frugal table spread, A blessing breathes on daily bread; Which, scorning finery and pride, Exults in comforts self-denied, And teaches man, 'tis vain to roam For pleasures to compare with home : This calms, as that the heart could move; And this is woman's noon-day love.

There is a love in a later stage, When pain and sickness grow on age, When he, so active once, and gay, Perceives approach the closing day; When failing strength and tottering limb, And sunken cheek and eye grow dim, Have to a spectre changed the man; Then love, by the fond wife possessed, Too vast, too grand to be expressed, Delights assidiously to ply, And cheers with tender sympathy, Consoles the mourner for the past, And fondly soothes him to the last; This love, in hours the most forlorn, Surpasses that of youth's bright morn; Different from that which marked life's prime, Though not so brilliant, more sublime; This love from Heaven derived its birth, Confesses no alloy of earth; It lifts the sufferer from his woe, Above the care of things below, And points to brighter things above; And this is woman's purest love.

"THERE'S NO SUCH WORD AS FAIL." Write it in lines of gold Upon thy heart, and in thy mind The stirring words unfold, And in misfortune's dreary hour, Or fortune's prosperous gale, Twill have a holy, charming power-'There's no such word as fail.'

The sailor on the stormy sea, May sigh for distant land; And free and fearless though he be, Would they were near the strand; But when the storm with angry breath, Brings lightning, sleet and hail, He climbs the slippery mast and sings, 'There's no such word as fail.'

The weary student, bending o'er The tomes of other days, And dwelling on their magic lore. For inspiration prays; And though by toil his brain is weak, His brow is deadly pale, The language of his heart will speak, 'There's no such thing as fail.'

The wily statesman bends his knee Before fame's glittering shrine : And would a humble suppliant be To genius so divine:

Yet though his progress is full slow, And enemies may rail,

He thinks at last the world to show, 'There's no such word as fail.'

The soldier on the battle-plain, When thirsting to be free, And throw aside a galling chain, Says, 'Oh, for liberty!'

Our household and our native land-We must-we will prevail: Then breast to breast, and hand to hand, 'There's no such word as fail.'

The child of God, though oft beset By fees without-within-These precious words will ne'er forget, Amid their dreadful din;

But upward looks with eyes of faith, Armed with the Christian's mail, And in the hottest conflict, saith, 'There's no such word as fail.'

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken acgrding to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States. J. K. FERNANDS, Indian Physician

Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods.

All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and as good fits, as can be got in any other establishment-in or out of the city. I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their atten-

People would not call the second or third time if my work did not suit them.

THE Subscriber respectfully calls the attention of the inhabitants of Milton, Quincy and the surrounding L neighborhood, to his

RICH AND FASHIONABLE ASSORTMENT OF FALL AND WINTER GOODS.

feeling confident that they are not surpassed in any store within twenty miles of Boston, (and not equalled by many Stores there.)

The assortment consists of some of the finest quality of English, German and American Broadcloths for Dress and Frock Coats. Rich and splendid Plaid and Fancy Silk Velvets, the latest style of Goods imported. or that can be bought in Boston, of the best quality. A fine lot of English, French, German and American short notice, and warranted to fit. Striped, Plaid and Plain Doe Skins and Cassimeres, of the latest style and best quality-very superior Goods. A good assortment of Beaver and Pilot Cloths, which will be made up in the most fashionable and work- eral assortment of CROCKERY, HARD AND manlike manner, with the best of trimmings, and warranted to fit.

Also-A lot of cheaper Goods, that will be made up for FALL and WINTER wear in a thorough and workmanlike manner, in any ste the purchaser may choose It is a well known fact that the Garments made at my establishment are by far superior to nine tenths of those brought from Boston, where a great many buy without thinking of looking at the work until the clothes are paid for and been worn a few weeks, when they find to their sorrow that the Goods are not what

they were cracked up to be, and would have been dear had they been bought at half the price paid. My practice is to make a good Garment, with good trimmings and good work; then I am not ashamed to see the customer or the garment after it has been worn a few months. The case is the reverse in some of the large advertising Stores in Boston, where they are glad to get their goods out of sight, and the customer too, so they get the money, they don't care how soon the garments drop to pieces, which they do to the sor-

row of a great many purchasers. These statements can all be substantiated both as regards myself and the Boston goods, by numerous individuals who have tried both places; many who have bought in Boston have brought their garments to me, and paid me dollars for doing what should have been done in the first place, and would have been done had I made them. Some of these shops advertise, to make the best suit of clothes that can be made for twenty-

five dollars, which we well know cannot be done. As evidence that I make as good or better garments than are made at these crack shops, a gentleman (an old customer of mine) was tempted to try one of these places, and got a coat for which he paid eighteen dollars, a short time after he brought it to me to repair; looking at one of my coats that I sell for seventeen dollars; he confessed that mine were cheaper at twenty dollars even, than his would be at fifteen dollars. This is but one instance, but many more could be named if necessary.

Gentlemen would do well to call and examine my Stock of Goods before purchasing elsewhere, they will find all I have stated to be facts, and they can buy a cheaper and better garment of me than they will get by going to Boston. A. SHOWELL MARSH. Milton, Oct. 19.

SCHOOL COMMITTEE'S REPORT. The School Committee of the town of Quincy, for the year which has now closed, beg leave respectfully to report, that in their several visits to the Schools they have witnessed much to give them pleasure, both as regards the fidelity of the teachers and the improvement of the scholars in their studies and deportment.

All the public schools in this town are anenal, that is, are kept by the same master or mistress the year round, with the exception of the school in the North District, and that in the East District at Germantown. In these two schools a female teacher is usually employed during the summer months, and a male teacher in the winter. The Committee think they have observed some serious inconveniences resulting from this system. The frequent change of teachers is, in the judgment of the Committee, an obstacle to the steady improvement of these schools. A person who keeps a school only for a few months, and then leaves with no intention of having charge of the same again, cannot be expected to feel the same lively and continued interest in the school as one who keeps for a year or longer. The Committee do not pretend to decide that the Districts just named are prepared, at the present time, to support an annual school. They wish merely to assign a reason, which they think the chief one, why these two schools should be less forward than some other schools in town, and they would express the hope that, as soon as practicable, the change they have indicated should be adopted by the inhabitants in those Districts. In conformity with a recommendation of the

School Committee of this town, made March 1st, 1841, and accepted and acted on by the town, the principal schools in the Centre and South Districts, which were then the largest in town, were divided, and the younger scholars in each, viz: those between the ages of seven and ten, were placed in separate schools, under female teachers. This system has worked well, in the opinion of your Committee, and has proved a decided advantage to the older and to the younger scholars. At the time when the change was adopted, the Centre and South were the only Districts where, from the fullness of the schools, it was thought necessary to introduce the new system. Since that time, however, four years have clapsed, and the town has increased very considerably in population. The schools in the West District and in the Quincy Point District are now both quite large. In the West School, (Mr. Cummings',) there have been, during the past year, one hundred and thirty-six different scholars, and an average attendance of seventythree. In the Primary School in the same District, there have been one hundred and twenty-seven different scholars, during the year, with an average attendance of fifty Here then are two hundred and sixty-three scholars in one District, and only two schools provided for them. The Committee think that those two schools are too full for any teacher to attend to, and recommend that an Intermediate School be established in the West District, to be kept by a female teacher, who shall have under her care all the children of said District between the ages of seven and

So also in the Point District School, kept by Mr. Atwood, eighty-eight different scholars have attended during the year, and in the Primary School in the same District there have been sixty different scholars. And the Committee cannot but think that a division of the children in this District, according to the plan already pointed out, would be a decided advantage, both in regard to instruction and government.

One of the greatest evils in our schools generally is the irregular attendance. As this is an evil which can be remedied only by the parents, the Committee would take this opportunity to bring the subject to the notice of their fellow-citizens. It has already been stated in this Report, that in the West School, while the Register kept by the teacher shows that there have been one hundred and thirtysix different scholars belonging to the school during the year, the average attendance has been only seventy-three. In the Point School, where there have been eighty-eight different scholars, the average attendance has been forty-nine. In the South School, (Mr. Seaver's,) the whole number of different scholars has been ninety-five, and the average attendance fifty-two. In the Intermediate School, (Miss Seaver's,) the whole number has been seventy-four, and the average attendance forty-three. In the Centre School, (Mr. Bicknell's,) the whole number has been one hundred and thirteen, and the average attendance fifty-two. In Miss Tirrell's school the whole number has been ninety-two, and the average attendance fifty.

These facts, gathered from the Registers which are required by law to be kept by the teachers of the several schools, are enough to show how very frequent in all the schools are the absences. Undoubtedly, for many of these absences good and sufficient reasons could be assigned. Still it is considered but fair to assume that for a large number of them no real excuse could be offered, and that the very great irregularity of attendance must be regarded as proving an indifference, much to be regretted, on the part of many parents, to the inestimable privileges furnished to them by the public schools. The Committee would respectfully urge upon parents to consider seriously their responsibility in this particular, and to take special care that no light and trivial excuse be allowed to keep their children from school. The most liberal appropriations that, ere you opened your door, the adapted to fishing and huntipe.

of money on the part of the town, for the support of the schools, and the most thoroughly qualified teachers that can be procured will be in vain, unless the parents and guardians and employers will see to it that the children at tend regularly and punctually.

Upon one other topic the Committee beg leave to present a few general remarks. The importance of good order in every school will be acknowledged by all considerate persons. The teacher must have the respect and obedience of those under his care, or he cannot succeed in his work. The Committee have taken every occasion that offered, in the several schools in town, to impress upon the minds of the children, the importance and necessity of submission to all just regulations. If the object can be gained by mild measures, these are to be preferred. But if mild means fail, as with certain peculiar dispositions they do sometimes fail, then the teacher is justified in resorting to corporal punishment. As a general rule the Committee cannot but regard it as a manifest duty of parents and of all good citizens to uphold the teacher, until it may clearly appear that the punishment which he has seen fit, in any case, to inflict, has been unduly severe. Every attempt on the part of the scholars to resist the rightful authority of the teacher ought to be discountenanced at home as well as in the school room.

All which is respectfully submitted, By order of Committee. WILLIAM P. LUNT, Chairman. Quincy, March 3d, 1845.

THE INAUGURAL ADDRESS .- The Boston Traveller says it is a document which will of course be sought for with interest, inasmuch as it will be expected to indicate the policy and character of the new administration. It is well written, concisely and clearly expressing the President's views on those points of national policy which engross and divide the minds of politicians and statesmen. In regard to its political doctrines, no one will be disappointed in the address. It maintains with unequivocal firmness the grounds upon which President Polk has been openly held up and finally carried into the presidency. On the whole, the address will produce a favorable impression, and its tone of candor and apparent sincerity will inspire even the President's political opponents with confidence that he will at least aim to conduct the public affairs with a view to the interests and welfare of the whole country.

#### THE TOWN CLOCK.

Quincy, March 7th, 1845. JOHN A. GREEN, Esq.

Dear Sir :- In the report of the expenses of the Town, in your last paper, I see- paid Lemuel Brackett, expense of putting up Town Clock, fifty dollars'-which I suppose is an abbreviation of paid for preparing a room in the tower of the Stone Meetinghouse, for putting up a clock. I know very well that in such lengthy reports it is desirable to abbreviate as much as possible, and for us who understand it, the shorter the better; but for the benefit of your numerous distant readers, I ask of you the favor of an explanation-which is, that the Town paid but fifty dollars for preparing a place for the Clock, although it cost somewhat more; and that Daniel Greenleaf, Esq., paid for the Clock with its four dials and sets of hands, and every expense of putting up the same, and gave it to the Town. Very respectfully, yours,

#### For the Quincy Patriot. TO THE RUM SELLER AND CARRIER.

DEAR SIR:-Reflecting upon the evils caused

by intoxicating liquors, and herring the whispers of public opinion that you still sell, or carry in private, I feel a duty to address you upon the subject. I propose, in the first place, to remark on the supposition that you sell or carry to inebriates.

You well know, that men, when intoxicated, are partially insane, and may commit any criese to which they may be tempted. But, sir, have you ever been at the house of a drunken maniac, seen him raging about the room, and abusing his family? I appeal to you to make this case your own. Suppose one of these maniacs, made such by your liquors, should thus abuse that wife and those children, so dear to your heart. View her and them in the presence of such a monster; see him in a fit of drunkenness, with eyes of fire, and countenance depicting the spirit of a demon, upsetting the table and destroying the furniture; see him throwing your beleved about the room by the hair of her head, and smiting her with his fists; see him brandish that deadly hatchet, and bury it in her innocent head; then take your lovely babe and dash ately ask you, can you sell or carry liquors to drunkards?

But do you sell or carry intoxicating liquors to that young man who is accustomed to drink this poisonous, deceptive fluid, and whose appetite for it is daily increasing, though yet a moderate drinker? If so, I ask you, are you not decoying this thoughtless youth into the pit of drunkenness?-Are you not putting into his hands the instruments of death?

I candidly ask you is not selling, or carrying, intoxicating liquors, as a beverage, a useless, dangerous business; and hurtful beyond human calcula-

I appeal to you as a gentleman, as a beloved husband and father to think upon this subject. Other wives and children are tender, delicate and lovely, and worthy to be loved; but whose feelings and persons are outraged by unfortunate drunken husbands and fathers, made such by your business.

I am satisfied you do not realize the extent of the evils you are inflicting; if you did you would desist. I would that you could go with the philanthropist to the abode of the drunkard, and see, with your own eyes, the miseries you have caused. I am sure that those generous, benevolent and sympathetic feelings of your nature, so naturally suppressed by your inhuman traffic, would soon have a ressirrection to life, and your hand would be opened for their relief. And, I am certain, the satisfaction of one such act would be worth more than all the good you have felt by carrying intoxicating liquors, as a beverage.

Hoping and believing that you will weigh this subject with the balances of justice, mercy and truth, and act accordingly, I subscribe myself your friend but an enemy to your business.

Quincy, Jan. 11.

He always finds that sweet repose The wealthy strive to gain; And they who lay their thousands up Are not such happy men.

Ilealth blooms upon his manly cheek, 11 sparkles in his eye, While all around on every side, His tools and hammers lie.

The music of his partner's voice, Her ever cheerful smile, And kind attention to his wants, His leisure hours beg uile. His heart is like the native air, Forever light and free, Few evil passions enter there,

For all is harmony. Who would not be a shoemaker? For, I've often heard it said : They are indeed the happiest men, Who hammer in the peg.

THE LEVELLER. The king he reigns on a throne of gold, Fenced round by his right divine; The baron he sits in his eastle old, Drinking his ripe red wine: But below, below, in his ragged coat,

The beggar he tuneth a hungry note, And the spinner is bound to his weary thread, And the debtor lies down with an aching head. So the world goes, So the stream flows;

Yet there's a fellow whom no body knows, Who maketh all free, On land and sea, And maketh the rich like the poor to flee.

The lady lies down in her warm white lawn, And dreams of her painted pride; The milk-maid sings to the wild-eyed dawn Sad songs on the cold hill's side;

And the bishop smiles, as on high he sits, On the scholar who writes and stares by fits: And the girl who her nightly needle plies, Looks out for the source of life, and dies. So the world goes, So the stream flows;

Yet there's a fellow, whom no body knows, Who maketh all free, By land and sea, And forceth the rich and poor to flee.

DR. FERNANDS' Vegetable Indian Arcanum,

FOR THE CURE OF Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelus, Salt Rheum, Rheumatism, Gout, Obstinate Culaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, end even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, Indian Physician JOS. J. CLARK, Agent for New England States.

CERTIFICATES. From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medi Sin-I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to-Consumption. I have in COACH, CHAISE & SIGN vain tried many medicines which were recommended, but from all of them I obtained not the least relief, About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health and have not raised any blood since the use of the first bottle of this excellent preparation

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank. To Mr. Joseph J. Clark:
DEAR SIR-I am gratified to learn that you are

about to establish a place for the sale of Dr. Fernands' Vegetable Indian Arcanum. I do most cheerfully certify that I am well acquaint-

ed with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have Old it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc. I am free to say, that since I have used this prepa-

I remember, I remember, The house where I was born ! The little window where the sun Came peeping in at morn ! He never came a wink too soon, Or brought too long a day,-But now I often wish the light

Had borne my breath away.

I remember, I remember, The roses red and white, The violets and lily-cups, Those flowers made of light,-The lilacs where the robins built,

And where my brother set The laburnum, on his birthday,-The tree is living yet.

I remember, I remember, Where I was used to swing, And thought the air would rush as fresh To swallows on the wing. My spirit flew in feathers then, That is so heavy now;

And summer pools could hardly cool The fever on my brow. I remember, I remember, The fir-trees dark and high,

I used to think their slender spires

Were close against the sky ! It was a childish ignorance : But now 'tis little joy, To know I'm further off from heaven Than when I was a boy.

#### DIRGE FOR AN INFANT.

Lay her gently in the dust; Grievous task, but oh ! ye must ! Hear the sentence, 'Earth to earth, Spirit to immortal birth;' Youthful, gentle, undefiled. Angels nurture now the child !

Upward soaring, like a dove, Bearing with her chains of love, Not to draw her spirit back, But to smooth her upward track, Her, the youngest of thy fold, Angels watch with love untold !

Said not oft her pleading eyes That they longed for purer skies; When the sob and crystal tear Spoke of rough'ning billows here, Prayed ye not that she might rest On her heavenly Father's breast?

With the 'Rock of Ages' trust That which was enshrined in dust; Robed in ever-spotless white, In an atmosphere of light, By the never-failing springs Rests she now her weary wings.

Give the spirit back to God, And its vesture to the sod! Life henceforth will miss a ray, Kindled but to pass away; Bearing a celestial name, Angels tend the vestal flame !

THE WORLD. BY R. S. S. ANDROS. The world is well!' the full-fed noble cries, And on his silken couch sinks down to rest; 'The world is well!' the preacher still replies-'There may be wo, but all is for the best'-'It is God's will !'-and thus the lie goes round.

The starving child waileth alond for bread : The famished mother maddens at the sound, And the pale father, from his wretched bed, Prays Heaven for help. The slave clanketh his chain In the free air, and to the blanching stars

That blanch for fear, displays the festering scars Of whip and fetter. Blood and outrage stain The groaning earth, maketh its breast a hell-And yet the preacher cries, 'The world is well!'

Thou willing fool! For this hast thou pored o'er The sacred page, and scanned the thrilling speech Of Him, the Nazarine, who did speak and teach As never yet did man, and conned the lore Of prophet and apostle? Turn again,

And from the lips of Him whom thou dost call Thy Master, learn, that what ye would that men Should do to you, do ye even unto all !

Then look abroad throughout this peopled sphere-List to the prayer of want, the wail of wo: Mark how the tyrant scoffs the victim's tear,

How power and pride ride o'er the weak and low, And lift thy voice as his was raised of yore, Or leave thy trade-the sword befits thee more !

DR. FERNANDS'

Vegetable Indian Arcanum, FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

JOS. J. CLARK, Agent for New England States. From W. Abercrombie of Quincy, Merchant

Trader. To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medi

SIR-I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to-Consumption. I have in vain tried many medicines which were recommended. but from all of them I obtained not the least relief About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health and have not raised any blood since the use of the first bottle of this excellent preparation.
WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank. To Mr. Joseph J. Clark:

DEAR SIR-I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' Vegetable Indian Arcanum.

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resort-Yours, truly,

IBRAHIM BARTLETT. Quincy, May 2d, 1843.

From John Page, formerly Clerk of the Han-

cock House, Quincy. To Joseph J. Clark, Agent for Dr Fernands' Arcanum: Sin-Some time since I was so much indisposed as to be unable to pursue my business, from an attack of Slow Feyer from which I partially recovered by the a window of a boarding house and sung out: 'Halle, left in a state of languid inactivity, or, as it may be there, squire, when did you come down? left in a state of languid inactivity, or, as it may be termed, general debility of the system. At this stage of my health, my triend Mr. Abercrombie, who had been happily cured by the use of a few bottles of Dr. Fernands' Indian Arcanum, advised me to seek for health from the same source, which I readily improved, health from the same source, which I readily improved, and the same source to those wishing dresses and with a restification, state to the public that I have

belonging to the estate situated near Mr. Kanan's The Hangman, a paper which was originally in- house, and two undivided lots near Mrs Fenno's. This sale will afford a rare opportunity for persons to abtain building lots. A portion of it is very elevated, commanding as extensive views as any other em-

country seats, which being near the Railroad would

particularly suit those who do business in the city.

That portion of the property nearest to the Quarries will furnish convenient house lots for stone-cutters and others engaged in the stone business. It being now the property of a company, the whole of it will be sold without reserve, and great bargains may be obtained. The conditions will be liberal, and

made known at the sale. A collation will be provided on the premises if the

sale continues after noon THOMAS ADAMS, Auctioneer. Quincy, March 29.

This property will be divided into lots suitable for building sites, and a road laid out through it. Such an opportunity to procure cheap and excellent building lots, where dry cellars and a good garden cap be obtained, and the price of which will be extremey low when the location and other advantages are considered, will not probably occur in the neighborhood for some time. Let no one fail to attend who desires a building situation, as he will doubtless regret it when it is too late.

The sale will be positive, as the owners of the property are determined to sell the same to close the Conditions at the sale.

O mother, dear mother, no wonder I cry, More wonder by far that your baby don't die; No matter what ails me, no matter who's here, No matter how hungry the " poor little dear!" No matter if full or all out of breath, She trots me, and trots me, and trots me to death !

I love my dear nurse, but I dread that great knee; I like all her talk, but, wo unto me! She can't be contented with talking so pretty, And washing, and dressing, and doing her duty; All that's very well; I can bear soap and water; But mother, she is an unmerciful trotter !

Pretty ladies, I want just to look at your faces; Pretty lamp, pretty fire, let me see how it blazes; How can I, my heart going bibbity bob? And she trots me the harder, the harder I sob. O! mother, do stop her, I'm inwardly sore, I hiccup and cry, and she trots me the more, And talks about " wind," when 'tis she makes me

ache: Wish 'twould blow her away, for poor baby's sake.

Thank goodness, I'm still ; O, blessed be quiet ! . I'm glad my dear mother is willing to try it: Of foolish old customs my mother's no lover, And the wisdom of this she can never discover : I'll rest me awile, and just look about, And laugh up at Sally who peeps in and out, And pick up some notions as soon as I can, To fill my small noddle before I'm a man.

O dear, is that she, is she coming so soon? She's bringing my dinner with tea-cup and spoon; She'll hold me in one hand, in t'other the cup, And as fast as its down, she'll just shake it up; And thumpity thump, with the greatest delight, Her heel it is going from morning till night; All over the house you may hear it, I'm sure, Trot-trotting! just think what I'm doemed to endure.

"I NEVER WILL DESPAIR."

The proudest motto for the young-Write it in lines of gold, And let it be engraven deep On memory's living scroll-Then in misfortune's gloomy hour, When racked with torturing care, 'Twill have a soul sustaining power-'I never will despair.'

The sailor on the stormy sea, May sigh for distant land; And free and fearless though he be, Wish he were near the strand; But when the storm is wild and loud, Amid the lightning's glare, He climbs the slippery mast and sings, 'I never will despair.'

The wearied student, bending o'er The treasures of the past, And dwelling on the magic lore Which genius has amassed, Though seaseless study blanch his cheek, His strength and health impair, Thevels beart these words will speak,

The patriot statesman whose whole soul Is in his country's cause, Who labors to establish peace, And to sustain the laws, May find his enemies a host, His friends but few and rare, Yet true to his last breath, he says, 'I never will despair.'

The soldier on the battle plain, When thirsting to be free, To throw aside a galling chain, And strike for 'Liberty!' Though great the peril, will not shrink, No sacrifice will spare : But nerving his right arm, will say, 'I never will despair.'

The christian, too, though oft beset By foes without-within, This motto should not once forget Amid the world's lond din, But when he lifts the eye of faith, And bends the knee in prayer, Be this the language of his heart, 'I never will despair.'

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF Consumption and Liver Complaint, Inflammation of the Jungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is 1 an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among severa! tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a ve getable nature, heing a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accom-panying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

DEAR SIR-I am gratified .about to establish a place for the sale of Dr. renames.

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline-that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly reliev- LAINES, and FANCY PRINTS; also, ALPACCA, ed, and have strong hopes, after following the directions, of being restored to health. Merchant Tailor,

RESPECTFULLY informs the people of Quincy and its vicinity, that he has removed from over D. Baxter & Co's Store to the stand lately occupied by Mrs. H. Brummett, School Street, where he has received a choice assortment of FALL AND WINTER GOODS, consisting of English, French and German BROADCLOTHS; such as Black, Blue, and Olive, of the very best quality.

Among the assortment I have received will be found English Beaver Pilot CLOTHS, of the best manu-

facture, and as cheap as can be bought in Boston or elsewhere.

CASSIMERES—I have got a good and fashionable assortment of English, French and American CASSIMERES; which I will warrant to give satisfaction. VESTINGS—I have got a first rate assortment, consisting of figured and plain silk VELVETS—plain and figured SATINS, and a good variety of CASH-MERES and VALENCIAS, etc.

Gentlemen in want of a first rate suit of clothes, cheap for cash, will find it to their advantage to call and examine my stock of Goods. All garments made by me, or in my establishment, will be warranted to be of as good cloth, as cheap and

as good fits, as can be got in any other establishment-in or out of the city. I return my warmest thanks to the inhabitants of Quincy and its vicinity for the liberal patronage I have received since my commencement of business here; and I further assure them, that I will by honest perseverance, render my establishment as deserving of a share of their patronage as any other to which their attention may be directed.

I would respectfully refer those gentlemen who have not as yet favored me with a share of their patronage to those gentlemen who have extended their support, and they will tell them how their garments suited. People would not call the second or third time if my work did not suit them.

Gentlemen getting their cloth from any of the merchants in town, may depend upon having their garments made to suit; or if they do not I shall refund them the money they paid for it. Quincy, Oct. 19.
